OF

COPPER WEATHER VANES

AND FINIALS,

MANUFACTURED BY

J. W. FISKE,

21 & 23 BARCLAY STREET, AND 26 & 28 PARK PLACE,

(CORNER CHURCH ST.)

NEW YORK.

The OLDEST AND MOST EXTENSIVE MANUFACTURER of Vanes in the United States ; no other person having been engaged in manufacturing this class of goods but a few years. In consequence of my long experience in this line of business, I am prepared to offer dealers and consumers a decided advantage both in price and quality. My Vanes are all MADE OF COPPER, and not a combination of zinc and copper, like other Vanes in the market. Am continually adding NEW AND ORIGINAL DESIGNS to my stock, which now comprises the LARGEST AND FINEST ASSORTMENT IN THE COUNTRY, for which I have received MEDALS AND DIPLOMAS over all other exhibitors, from the principal Fairs and Institutions. My Vanes are made of COPPER, GILDED WITH THE FINEST GOLD LEAF ; will not corrode, and will keep bright for ages. Every Vane is a PERFECT INDICATOR OF THE WIND, and warranted in every respect superior to anything in the market. The letters and balls are well gilded. The Spires are wrought iron, with hardened steel spindles for the Vanes to turn upon. I would call especial attention to my Eagles, which are full-bodied, and wings double thickness, a PERFECT FAC-SIMILE OF THE AMERICAN EAGLE taken from life.

The price of each Vane includes a wrought iron spire, with points of compass, gilt letters and balls.

It is impossible with the large variety and constant additions to illustrate but comparatively a small portion of my different designs of which I manufacture.

 Vanes of any design made to order at short notice and at reasonable rates.

I would caution my customers and the public against being deceived by Vanes which are now being made, copied after my designs, some of which are made of SHEET ZINC, AND COVERED WITH A THIN SOLUTION OF COPPER WITH ZINC TUBING. Unlike my Vanes, which are made of sheet copper, and mounted with brass tubing.

 *Purchase no Vanes unless made of Sheet Copper, or Brass and mounted on Brass Tubing.*

 **MANUFACTURER AND AGENT FOR LIGHTNING RODS.**
